Summary: PSI INTERNATIONAL, Inc. Awarded Contract with the Food and Drug Administration

FAIRFAX, VA, September 24th, 2009 – PSI INTERNATIONAL, Inc. is pleased to announce that it has been awarded a three-year Indefinite Delivery/Indefinite Quantity contract by the Food and Drug Administration (FDA) to operate, maintain and enhance their Establishment Evaluation System (EES). This is an Oracle-based mission critical system that is primarily used by the FDA's Office of Regulatory Affairs (ORA) to track and inspect establishments that manufacture medical products.

The award of EES project complements PSI's support to additional five active contracts at FDA and is strategic to the expansion plans within the Health Science business.

“The award of this contract reflects very positively on our outstanding track record at FDA and other federal, state and local agencies. Our personnel performing work at FDA and elsewhere are to be commended for their commitment to excellence, customer service, and enthusiasm. Very few companies can match PSI's record of performing support on six active contracts at FDA.” states Nazim Dhanani, President of PSI.

PSI INTERNATIONAL, Inc. Background Information

PSI INTERNATIONAL, Inc. is a Fairfax, Virginia-based company that has been providing innovative Information Technology (IT) services solutions since 1977, with emphasis on integrating IT services with subject matter expertise in the two niche areas of Health Science and Social Services. PSI serves federal, state, local, and commercial clients in the United States and in a number of foreign countries.
