SUMMARY: PSI INTERNATIONAL, Inc. SIGNS MULTI-YEAR, MULTI-MILLION DOLLAR CONTRACT WITH THE FOOD AND DRUG

ADMINISTRATION

FAIRFAX VA, June 14, 2006 – PSI INTERNATIONAL, Inc. (PSI) announced that it has signed a multi-year, multi-million dollar contract with the Food and Drug Administration (FDA) to operate and manage the Center for Biologics and Research's (CBER) Document Control Center (DCC). Under this contract, PSI will continue to manage all of the hard copy and electronic regulatory documents entering DCC. PSI will continue to assist in introducing additional records management technologies that will increase the efficiency of routing, tracking, and managing CBER's documents and continue to be instrumental in evolving DCC into a world class Records Management Center. Under the contract, PSI will provide project management and functional supervision personnel, as well as Records Management Specialists and Subject Matter Experts who will ensure that the documents entering DCC are made available to the CBER community in a timely manner while maintaining their full integrity and accountability.

“This win is evidence of our continued partnership with CBER and their implementation of a long term vision to elevate DCC into a robust technology-based Records Management Center. We are extremely gratified that the FDA continues to place their trust in PSI and in our ability to support their mission critical needs for the next five years,” stated Nazim Dhanani, President of PSI.

According to Bill York, PSI’s Director of Business Development, “During the past 18 years, PSI has helped implement numerous technologies which have resulted in productivity gains throughout the DCC operation. PSI has an unbeatable record in that area and is looking forward to strengthening it with further innovations.”
